# Central Tilba PS Newsletter

Issue No. 31

**Term 4 Week 8**

## Congratulations Jack Moore

Each year the students in Year 4 create an artwork with an environmental theme for the Eurobodalla Shire Council annual calendar. The theme for 2022 is "Our Estuaries". Jack's artwork depicts Gulaga as the starting point for the creeks which run onto our local estuaries and is featured for August- his birthday month! Every student will receive a calendar with their newsletter.

## Communication

We certainly understand that families are busy! Please support our wonderful office staff, Kim and Brooke, in reading our school newsletter and notes on our School Stream app. Kim and Brooke spend countless hours on the phone answering questions and clarifying information which is clearly published in our newsletter. Following up on permission notes is also very time consuming.

Thank you to the families who return notes and payments promptly.

## Child Protection

K12 and 3-6 have been implementing Child Protection programs this term. The children have been learning about the importance of building and maintaining respectful, trusting relationships, communicating effectively and the correct names and location of body parts. Families may wish to continue these discussions at home to support their child's understanding.

## Head Lice

We are pleased to see that all our students with long hair have been coming to school with it securely and neatly tied back. This is the best and easiest form of headlice protection. Some amazing hairstyles are also being worn!

Thank you for your continued support as the year rapidly draws to a close.

**Tania Hextell**  
Principal

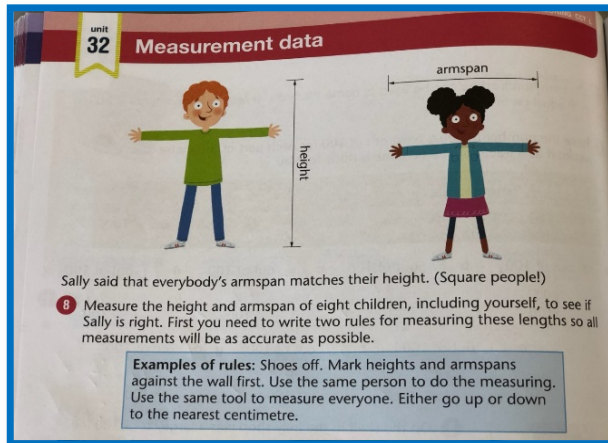

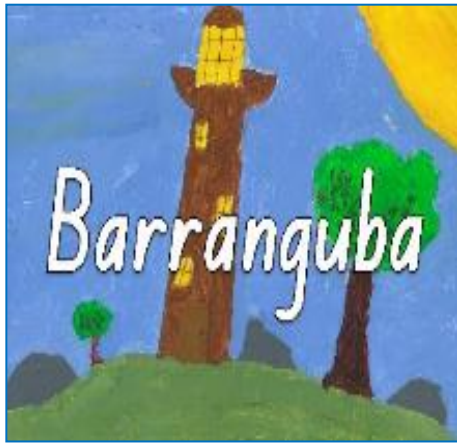

## Growing Yui Languages

Thank you to Bermagui Public School and Merrimans Local Aboriginal Land Council for sharing the resources you have collaboratively developed to support our understanding and knowledge of the Dhurga language, as well as the cultural significance of local landmarks. The books are beautiful and will take pride of place in our classrooms and in our library.

Our PBL Focus for this week is:  
**Respectful and trusting relationships are important and valued.**

## Maths!

**Year 3** were testing the hypothesis that people are "square"!

That is that their armspan is equal to their height.

**Year 4** investigated and made nets of 3D shapes.

### Year 6 Orientation Day at Narooma High School

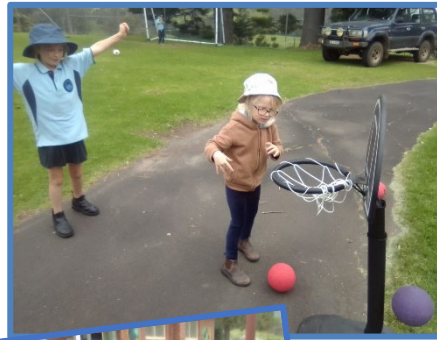

On Tuesday, Year 6 had their first full day at Narooma High. They participated in many lessons, made new friends, met their teachers, and learned where rooms are.

**Happy Birthday to Bob and Sonny this week!**

**Next Wednesday we are going to Bournda Environmental Education Centre for a day of co-operative group activities and fun! Don't forget to return your note!**

Great work happening here. The boys are trying to remember, and use, the sounds s, a, t, n, i, p.

Kindergarten enjoying working near the fishpond and writing in the scoopy seats.

At Kinder transition last week the Year 2 children set up and ran the fitness tabloid for the new kinder children. Well done everyone.

Year 1 learnt that if  $4 + 7 = 11$ , then they know that  $11 - 4 = 7$  and  $11 - 7 = 4$ .

Start thinking about what you'll be doing for this year's Talent Quest. Will you sing, skip, tell a joke, play the drums, tame a dinosaur or do a cartwheel- the choice is yours...?

# ReBoot in Bermagui

**Reboot in Bermagui – Reboot into summer fun for children, families and everyone**
