**Issue No. 6**

**Term 1 Week 8**

## **Assistant Principal Curriculum and Instruction**

I am delighted to announce that Ms Kara Munn has been appointed, through the merit selection process, as an Assistant Principal. This leadership role is dedicated to ensuring that the effective planning and implementation of evidence-based literacy and numeracy practices continue and grow at our school. I'm sure you will join me in congratulating her with the knowledge that her impact will continue to be as evident and valued, as it always has, in leading the learning of our school.

## **Year 6 Transition**

Year 6 had a visit from Narooma High School. Dylan Powell (Student Support officer), Mandy Evans (Year 7, 2023 Year Advisor), Shirlee Rowland (Head Teacher Wellbeing) and Karen Ella-Bird (Senior Leader Community Engagement) made themselves known and invited Years 5 and 6 students and

parents to an Open Night at NHS on Tuesday 29<sup>th</sup> March. Invitations have been sent home to families this week.

## **Congratulations Marcus and Archer!**

Our PBL Focus last week was open mindedness. Being open to new ideas and suggestions, trying things a different way, playing with someone new and accepting the views of others.

## **Clean Up Australia Day**

We are going to Corunna Point on Friday on the bus. We will walk through the National Park, stopping for a run around the velodrome, walking onto the beaches and collecting any litter we find along the way to the rotunda at Mystery Bay Beach. Sandy and Linda are cooking a sausage sizzle lunch for us to enjoy when we get to the rotunda. We'll be hungry after our hard work! Parents are welcome to join us in our efforts to keep our patch litter free. Please return permission notes via School Stream and \$5 for the bus by Wednesday.

## **Tania Hextell (Principal)**

**Our PBL Focus for this week is:**  
**Integrity: be honest and trustworthy.**  
**If I say I will- then I will!**

**The News Room**  
Barranguba class applied their reporting skills, public speaking and filming techniques to create a news program.

Stage 2 wrote informative texts on the Thorny Devil- including realistic illustrations. They experimented with layouts, fonts, text colours and structure to ensure their writing included subheadings and was easy to read. It also had to fit on one page!

**Some writing inspired by the story and character strengths of Marie Curie. Integrity means being honest and trustworthy.**

She was known as "The Mother of Modern Physics". She was born in Poland in 1867. She was very clever and loved Science but she was not allowed to go to university. Marie's research discovered x-rays and treatments for cancer. She saved people's lives. Marie Curie had great integrity because she was honest and trustworthy. **By Athena**

Marie Curie was known for her work in modern physics. She was born in Poland in 1867. She discovered radium and polonium. She named it that because she was born in Poland. She won the Nobel Prize in 1903 and won another one in 1911 for Physics and Chemistry. Marie discovered x-rays and treatments for cancer. Her husband died in a tragic accident. Marie Curie had great integrity, which means she was honest and trustworthy. When she discovered radium and polonium, she didn't say "I discovered it, I get to name it and I will keep my work", instead she let people use her work to expand on it and save countless lives.

**By George**

**Congratulations Banjo!**  
Third place in the Eurobodalla Summer Reading Challenge!

We have been training for the Cross Country each day during our fitness time. There has been a big improvement in endurance and stamina!

Thank you to the Salvation Army Bushfire Recovery for funding a visit from the Tiny Zoo this week.

Tiny Zoo introduced us to Maud the tawny frog mouth, Andrew the python, a spiny stick insect, Oskar the ring tail possum and Kahlua the bearded dragon.

We used plastic forks, paint and some collage materials to create our cute puffer fish.

Each week we have a LEGO STEM challenge. We've built mazes and castles. I wonder what the next challenge will be?

Science with Miss Elton is super exciting. We are investigating how plants get water from their roots to their leaves. We'll watch the roots grow in our potato experiment.

### Yarn Up

## Movies by Moonlight OUTDOOR CINEMA

Saturday 26 March 2022

Hey Narooma! The holiday makers are heading home and it's time to re-emerge.

Come and watch the Hollywood blockbuster *Jumanji: Welcome to the Jungle* under the stars and be reminded how much you love the place you live.

Pack a picnic or enjoy a feed from onsite food trucks.

This event is a joint initiative between the NSW Government, Eurobodalla Council and the Narooma Chamber of Commerce as part of the Summer Night Fund / Festival of Place – a celebration a celebration of public spaces across NSW.

#### Where

NATA Oval  
Bluewater Drive, Narooma

#### Time

Gates open 6.30pm  
Movie start time 7.30pm  
No bookings required

Bring a picnic rug, blanket or chairs!

Proudly funded by the NSW Government in association with Eurobodalla Council.

### P & C Festival Committee Meeting

The next meeting for this year's festival will be held at the Dromedary Hotel, 5pm Friday, 18th March. Everyone is welcome and encouraged to attend. We hope to see more parents this week.

We need more volunteers for the festival stall please consider helping on the day even if its only for an hour or 2.

Please contact the school office if you can help. Ph 4473 7210
